September or October

***DIGGING AND DELIVERY TIMES MAY VARY
DEPENDING UPON WEATHER CONDITIONS.***

PAEONIA - Peonies

Peonies are the “aristocrat” of the perennial garden with their showy profusion of beautiful flowers. They are spring bloomers, long-lived, dependable, and make good cut flowers. We ship 3-5 eye blooming-size divisions.

CULTURE: Peonies prefer full sun and rich, well-drained soil, with good air circulation. Ideal transplanting time is during dormancy, usually after mid-September.

Prepare a hole 18" deep and 24" wide, place the eyes no more than 2" below the soil surface. Space 3'-4' apart. Fertilize with Plant-tone in spring and fall. Do not cover the "eye" with mulch. Cut foliage back to the ground in the fall. USDA Hardiness Zones 3-8.

AVAILABLE BETWEEN SEPTEMBER AND EARLY NOVEMBER

Weather permitting!

E = Early M = Midseason L = Late PP = Patent Pending

Catalogue

Number
